

Singapore Summer 2015 Study Abroad Program

Led by Center Director Julie Agnew with support from Associate Director Rita Murphy and Post-Baccalaureate Fellow Megan Woodward, 14 undergraduate students took part in a five week program introducing them to international finance in Singapore.

Six members of the W&M faculty provided lectures during the two-week on-campus portion of the program. Six W&M alumni participated in on-site or virtual "What is...?" sessions to help prepare the students for site visits.
